

QUALITY

OUR CREDENTIALS

BTRoS Interiors & Cabling Division is a BS EN ISO 9001 approved company committed to supplying products to a high quality standard to ensure consistent customer satisfaction. We are currently working towards IRIS (International Rail Industry Standard).

We supply safety critical assemblies for the rail industry so the need to have a robust quality management system is essential to ensure we supply products that achieve fitness for purpose, satisfy customer requirements and meet statutory and regulatory requirements.

We place maximum emphasis on quality production and are committed to improve the quality of products and process efficiency through quality objectives and key performance indicators.

BTRoS Interiors & Cabling Division implement lean manufacturing techniques and apply continuous improvement initiatives. We constantly strive to minimise non value added activity and maximise production efficiency.

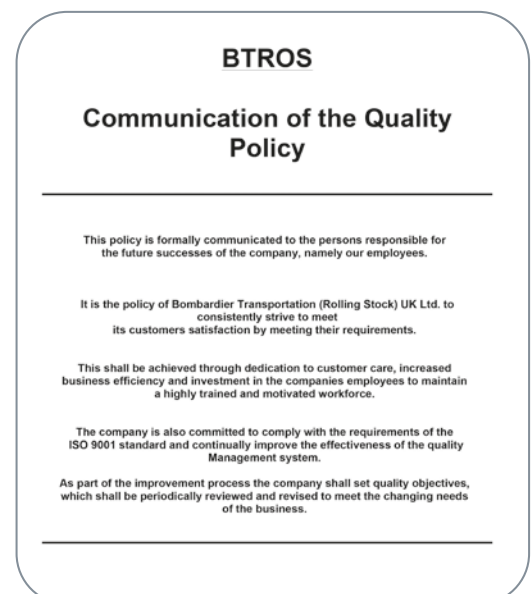

BTRoS Interiors & Cabling Division as part of the main Bombardier site, operates to the following standards;

- BS EN ISO 14001 For Environmental Standards
- BS EN ISO 18001 For Health & Safety Management
- Achilles RISQS (ex LINK UP)
