

WAREHOUSE

SECURED STORAGE SPACE

We have 1470m² of secured storage space in our warehouse facility with over 2500 live line item parts to pick from.

All material flows are controlled using our Enterprise Resource Planning (ERP) system carefully planned and scheduled to meet customer on time delivery.

Our experienced store operators ensure our quality standards are maintained to meet customer requirements including packaging standards.

We have the capacity to provide customers JIT, ship to cell production and supply solutions.

We can also offer bonded store facility should you want us to hold your finished goods inventory.
